 Kandy, Sri Lanka

SKILLS

- Network & Information Security
- Python
- Cryptography Basics
- Problem Solving & Analytical Skills
- Vulnerability Assessment

LANGUAGE

- English
- Sinhala

ABOUT ME

Highly motivated and detail-oriented Cyber Security undergraduate at SLTC Research University. Passionate about network security, ethical hacking, and protecting digital assets. I am eager to apply my academic knowledge in a practical environment and looking for an entry-level opportunity or internship to grow my skills in the cybersecurity industry.

ACADEMIC PROJECTS

Packet Sniffer Built in Python

SLTC Research University

A custom network packet analyzer constructed to inspect TCP/UDP payloads and document potential network vulnerabilities. This project was developed utilizing Python and networking security principles to analyze network traffic and enhance threat detection capabilities.

Crypto Vault App

SLTC Research University

An end-to-end encrypted messaging application prototype demonstrating symmetric and asymmetric encryption algorithms. Built using JavaScript and Node.js, this application focuses on applied cryptography to effectively secure digital communications.

EDUCATION

SLTC Research University

B.Sc. (Hons) in Cyber Security

Kegalu Vidyalyaya

Physical Science Stream

- Results: 3 S Passes
- (Combined Mathematics, Physics, Chemistry)
